MANTELS

GEORGE J. KREIER

DECORATIVE SCULPTOR

ESTA. 1912.

IN PRESENTING this little brochure I submit out of many models accumulated in over sixteen years, some examples of Chimney Pieces which I am manufacturing in the imitation of various stones and also Keene Cement for painting.

The popular various colored textured Stucco Finishes used in our Modern Homes invite the installation of these Cast Stone Mantels even more than in the past. These Mantels can be made up in any desired color, are of great durability, and are priced so attractively as to command the use of them where formerly an inferior article was used.

I am prepared to furnish estimates on any special design submitted and execute same most carefully and promptly.
